## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/21/04 has been entered.

### ***Election/Restrictions***

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figure 1 drawn to a first embodiment of the claimed invention

Species II: Figure 2 drawn to a second embodiment of the claimed invention

Species III: Figure 5 drawn to a third embodiment of the claimed invention

Species IV: Figure 7 drawn to a fourth embodiment of the claimed invention

Species V: Figure 8 drawn to a fifth embodiment of the claimed invention

Species VI: Figure 9 drawn to a sixth embodiment of the claimed invention

Species VII: Figure 11 drawn to a seventh embodiment of the claimed invention

Species VIII: Figure 12 drawn to an eighth embodiment of the claimed invention

Species IX: Figure 18 drawn to a ninth embodiment of the claimed invention

Species X: Figure 19 drawn to a tenth embodiment of the claimed invention

Art Unit: 2633

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 2633

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
